DETAILED ACTION

Allowable Subject Matter

1. Claims 4,7,8,11-13 and 17 allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: Prior art failed to establish the protrusions and the pixel electrodes in the required manner.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 5, 15 and 18 rejected under 35 U.S.C. 102(e) as being anticipated by Takizawa et al. (6,573,964).

Regarding Claims 5, 15, and 18, Takizawa et al. disclose a multidomain vertically aligned liquid crystal display device where in Fig. 3, substrate 20 and 21, liquid
